

## Fluorescent Green Gaffer Tape

This bright, high luminance fluorescent green Gaffer Tape is routinely used by special effects professionals to clean up overlapping areas in a “key,” the green screen shot where the background of a scene will be digitally inserted in post production. The high-gain, fluorescent nature of the tape makes it an excellent choice when working in digital green areas, such as surfaces painted in our Ultimatte® and DigiComp® Green paints. GaffTac™ Keying Tape will work in many shots to mask seams, edges, scenic elements or to cover irregular surfaces not otherwise properly colored for a successful key.

GaffTac™ 2in Keying Tape is made on a traditional cotton cloth and vinyl coated fabric base and uses a synthetic rubber blend adhesive. This combination provides high tack with excellent adhesion yet still removes cleanly without leaving behind any sticky residue. It’s also easily tearable, which means no need for cutting tools. The textured weave of cotton fabric helps insure limited reflections or glare that might spoil the keying shot.

### Features:

- Fluorescent green suited for special effects
- Vinyl coated cotton backing cloth
- Synthetic rubber blend adhesive
- Supple 11.5mil base
- 2in or 1/2in wide

### Benefits:

- Quick solution for cleaning up a digital green screen or scenery
- Matte, non-glaring surface sheen
- Conforms to odd shaped and irregular surfaces
- Durable yet easy to tear for quick application
- Strong bond to many common materials
- Hand tearable – no cutting tools required

### PRODUCT INFORMATION

---

Put up	Single Roll Case of 24 rolls (96 roll/case for 1/2in)
Sizes	2in x 55 yds (48mm x 50m) 1/2in x 27 yds (12mm x 25mm)
Colors	Fluorescent Green Keying Tape

### SPECIFICATIONS

---

Backing	Vinyl coated cotton fabric
Adhesive	Synthetic rubber blend
Finished Thickness	11.5 mil +/- 0.3 mils (292 um)
Peel Adhesion	50 oz. / inch
Roll Unwind Force	29 oz. / inch
Tensile Strength	50 lbs per inch
Temperature Resistance	Up to 200° F (93°C)
