

A highly portable, 63" (1.6m) wide, vinyl flooring material that is lightweight and flexible, so it can be rolled and unrolled as needed – making it an excellent choice for touring productions, theatrical venues, or for semi-permanent installation inside dance studios. Rosco Dance Floor resists rippling and waves for easy installation thanks to a woven glass fiber interlayer that is manufactured between its two vinyl outer layers. This dimensionally stable construction also inhibits expansion and shrinkage due to temperature fluctuation, which enables Rosco Dance Floor to resist buckling when installed in sunny areas of dance studios.

Available in Black/Grey or Black/White, this reversible dance surface provides a medium floor speed with a matte, non-skid finish: suitable for Ballet, Modern, Jazz, Lyrical or Hip Hop.

**Composition:**

Two homogenous PVC outer layers with a glass mesh interlayer

**Nominal thickness:**

0.05" (1.2mm)

**Roll Size:**

63" x 131.25" (1.6 m x 40 m)

**Weight:**

1.72 lbs/linear foot (2.56 kg/linear meter)

226 lbs per roll (103 kg per roll)

**Colors Available:**

Black/Grey, Black/White

**Flame Spread:**

ASTM E648-97 Class 1 per NFPA 701

**Floor Speed:**

Medium
